## **DETAILED ACTION**

- 1. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: after treating with the second resin, there is no drying step prior to consolidated the dry particles under heat and pressure.
- 2. Claims 2-20 are objected to as being dependent upon a rejected base claim.
- 3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 4. Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Randall et al.

Application/Control Number: 10/655,996 Page 3

Art Unit: 1732

Randall et al. disclose adding a phenol-formaldehyde resin having low nitrogen content to green lignocellulosic particles before they are dried. Thereafter the drying the green particles adding a second resin to the particles such as wax and consolidating the dried particles under heat and pressure. With respect the molar ratio, moisture content, and nitrogen content see Column 4, lines 47-50 and Column 5, lines 1-4, Column 5, lines 60-67 and Column 10, lines 28-32.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Lechert Jr. whose telephone number is 571-272-1203. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Colaianni can be reached on 571-272-1196. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
